

Green Malabar Highland Pepper freeze-dried

DE-ÖKO-006

Our Green Malabar Highland Pepper originates from a project with natives of the Wayanad Highlands of Kerala/India. It is especially popular among cooks because of its fruity and fresh Malabar aroma with mild pungency.

This high quality pepper is specially careful freeze-dried, whereby it not only keeps its delicious Malabar flavour, but also its fresh green colour. Hereby it distinguishes itself also optically – e.g. in pepper and spice blends.

It is excellently suitable as steak and fish pepper, for seasoning salads e.g. tomato-mozzarella salad or also for refining sauces.
